

SPONSORSHIP PROGRAM

THE CALGARY TORPEDOES WATER POLO

THE LEGACY OF OUR COMMUNITY

The Calgary Torpedoes Water Polo Club is well-established as the most decorated male high performance club in Alberta. The Torpedoes co-founders John Csikos and Gord Graham instilled their vision and passion for water polo assisting with the development and growth of the sport in the city of Calgary. The Torpedoes focuses solely on male high performance development while competing in Water Polo Canada's National Championship League and various international competitions as well. Our programming is geared towards 15U, 17U, 19U and Senior age groups allowing athletes an opportunity to increase their skill and game development through a comprehensive water polo career. Our athletes, coaches and officials have gone on to represent and compete for Team Alberta, on Water Polo Canada Age Group and Senior National Teams, overseas professionally, at the Olympics, and post secondary in the OUA and NCAA.

OUR PASSION

World Class

The Calgary Torpedoes is able to offer all training at MNP Community & Sport Centre in downtown Calgary, providing multiple competitive sized pools and strength and conditioning facilities. We strive to develop elite level Torpedo athletes.

Excellence

Torpedoes aligns its programming with the Water Polo Canada Excellence Stream and Podium Pathway. This ensures athletes receive the training hours required in and out of the pool to provide maximum athlete development within the appropriate long term athlete development stage. The Torpedoes compete in the National Championship League (NCL) allowing athletes to travel within Canada and compete against high level age group teams across the country.

Leaders

We are committed to the process of building young athletes, coaches, and officials both physically and mentally into the best versions of themselves through hard work, team building, and community development. We work alongside our local community clubs to further grow and promote the sport of water polo.

OUR PASSION

Discover

Water Polo is a niche sport and not highly recognized within Canada. As we strive to continue to build the sport, the club relies heavily on fundraising, grants and sponsorships in order to maintain our operational costs.

Sportsmanship

We work collectively as a unit to overcome challenges, display respect for our teammates and opponents, and strive for greatness together as a team.

Support

We invite you to support the Calgary Torpedoes through our sponsorship program and assist the club in building its community of high performing athletes, coaches, and officials.
